HIGH VOLTAGE. HIGH RISK.

NV Energy’s number one priority is the safety of our customers and employees. It doesn’t take much to be seriously injured from even a small amount of electricity. If you see NV Energy workers in your area, please keep your distance – they could be working on live electrical equipment. Never tamper with power lines, enter NV Energy substations or climb on energized electrical equipment. And remember to stay at least 30 feet away from downed power lines. To report a safety concern, call 911 first, then call the NV Energy Emergency line at 702-402-2900. More safety information is available at nvenergy.com/safety.

THE POWER OF GOOD IS ALWAYS ON.
50 Years of Friendship

KLX-TV signed on the air — for three hours (!) — on March 25, 1968. When summer vacation ended later that year, an additional six hours of live, black and white instruction classes for school children was added to the daily schedule. In 1971, PBS began providing a national all-day program service, but charged annual fees to local stations. To meet this cost and to provide marketing support for these new services, the Friends of Channel 10 was founded by a group of dedicated community volunteers led by the indefatigable Charlotte Hill. The new nonprofit group assumed a major fundraising role for our public television station by helping to secure funds for local productions and the annual programming dues to PBS. ‘Friends of 10’ hosted the first televised auction raising $35,000 for the station and establishing a solid foundation of financial support that has driven our educational, cultural and public affairs community impact for five decades.

In 1999, The Friends of Channel 10 restructured and was renamed Southern Nevada Public Television (SNPT) as they launched a capital campaign to fund the digital television transition and the construction of what is now the Vegas PBS Educational Technology Campus. Today, SNPT functions with numerous mission-based councils staffed by dedicated Vegas PBS volunteers and supporters, including a Community Technology Campus. Today, SNPT functions with numerous mission-based councils staffed by dedicated Vegas PBS volunteers and supporters, including a Community Technology Campus.

The board may have a new name today, but they will always be treasured “friends” of the station.

Impossible Builds

Learn about the creation of some of the world’s most ambitious and technologically advanced buildings. From subaquatic homes to futuristic towers and pencil thin skyscrapers, see how these previously impossible structures are taking shape.

The Scorpion Tower / February 7

In the heart of downtown Miami, a skyscraper like no other is rising. The brainchild of superstar architect Dame Zaha Hadid, the Scorpion Tower features an insect-like external skeleton where the supporting columns are on the outside of the building. The curvaceous design is so radical, construction experts have turned to a building material never before used in skyscraper construction. As the building work begins, the entire workforce is rocked by the sudden death of Hadid. Determined to complete the tower as a legacy to one of the most extraordinary architects in a generation, the team must now rewrite the rulebook as they take the pioneering building material to new heights.

...the entire workforce is rocked by the sudden death of Hadid.”

Europe in the Desert / February 14

Austrian property developer Josef Kleindienst has a dream — to transform six barren sand islands poking out of the Persian Gulf into the most luxurious holiday destination on earth. His plans are ambitious and costly. He’s spending tens of millions of dollars to re-create the essence of Europe across six artificial islands located 2.5 miles off the coast of Dubai. His six-million-square-foot resort will feature 14 hotels and 42 private residences, and will accommodate up to 16,000 people at any one time.

The Floating House / February 21

Living beneath the waves has long been a science fiction fantasy, but architect Marco Bolzoni’s team in Dubai is trying to make it a reality. Above the waterline, it promises two floors of ultra-luxurious living space. Downstairs is another world. The floating Seahorse hopes to offer the first underwater bedroom, complete with coral garden. If his calculations are not spot on, he could find himself and his multi-million dollar villa in deep water.

Tesla: American Experience Wednesday, January 31 at 11 p.m.
Meet Nikola Tesla, the genius engineer and tireless inventor whose technology revolutionized the electrical age of the 20th century, paving the way for today’s wireless world. Eclipsed by contemporaries such as Edison and Marconi, the visionary scientist died impoverished and largely forgotten. But the visionary Tesla imagined robots, radio, radar, remote control and the wireless transmission of messages and pictures. His fertile but undisciplined imagination was the source of his genius but also his downfall, as the image of Tesla as a “mad scientist” came to overshadow his reputation as a brilliant innovator.

New From American Experience

Gilded Age: American Experience
Tuesday, February 6 at 9 p.m.
Thirty years after the Civil War, America had transformed itself into an economic powerhouse, but the transformation had created stark new divides in wealth, class and opportunity. The simultaneous growth of a lavish new elite and a struggling working class sparked passionate and violent debate over questions still being asked today: How is wealth best distributed, and by what process? Should the government concern itself with economic growth or economic justice? This special is a compelling portrait of an era of glittering wealth contrasted with extreme poverty.

Bombing of Wall Street: American Experience
Tuesday, February 13 at 9 p.m.
On September 16, 1920, a horse-drawn cart packed with dynamite exploded in front of Morgan Bank — the world’s most powerful banking institution. The blast left 38 dead and hundreds more seriously injured and many wondered if this was a strike against American capitalism. A mostly forgotten act of terror that remains unsolved today, the bombing helped launch the career of a young J. Edgar Hoover and sparked a bitter national debate about how far the government should go to protect the nation from acts of political violence.

Sunday, February 25 at 10:30 p.m.

This gripping documentary reveals the childhood of Queen Victoria’s grandson, the future Kaiser Wilhelm II. Just 13 years after his grandmother’s death, Wilhelm led his country into the First World War.
Engaging Extensions for Learning

Vegas PBS is dedicated to providing engaging educational opportunities for children in Southern Nevada, to extend learning beyond the broadcast. We are excited to hold our 2018 PBS KIDS Writers Contest this spring. With this event, we celebrate the creativity of Southern Nevada kids and encourage a love for art by promoting hands-on, interactive learning experiences. Children grades K-5 are encouraged to submit original stories with illustrations to Vegas PBS. The top three winners in each grade level will be honored at a recognition ceremony at Vegas PBS in which the awardees will learn their placements. Prizes include a trophy, framed enlargements of their work and additional reading and writing resources, all sponsored by Janice Allen. First place winners will also receive a scholarship to attend the Southern Nevada Writing Project’s Summer Youth Writing Camp. More information can be found at VegasPBS.org/writers-contest.

Vegas PBS also fosters a passion for creativity through the television programs we offer. Joining our Vegas PBS KIDS lineup on Monday, February 19, is Pinkalicious & Peterrific, a new animated series that encourages preschool-age children to explore the arts and spark creativity in the areas of music, dance and visual arts. Based on the best-selling HarperCollins Pinkalicious book series by Victoria Kann, Pinkalicious & Peterrific follows the adventures of Pinkalicious and her brother Peter. Pinkalicious imagines creative possibilities everywhere she looks. She is an artist at heart — and, like most creative people, she sees the world differently from others. She knows what she likes, and she’s not afraid to express herself — though she sometimes needs help from her brother, Peter, and her neighborhood friends. Full episodes and clips of Pinkalicious & Peterrific will be available across PBS KIDS’ streaming video platforms, including the PBS KIDS Video app, and will be paired with related games at pbskids.org and on the PBS KIDS Games app.

The benefits of integrating videos and games is grounded in research showing that the combination leads to better learning outcomes for kids. We are excited to report the launch of “phase one” of a new game integration feature on the Vegas PBS KIDS 24/7 livestream. This new feature promotes related games at the end of select shows. Integrated games will launch initially on the PBS KIDS Video iOS and Android mobile apps. Links to these games will initially appear in four PBS KIDS shows: Dinosaur Train, Nature Cat, Wild Kratts and Odd Squad. If a child or parent clicks on the “Play Now” button presented at the end of the program, they will be taken to that game in the PBS KIDS Games app where learning opportunities will continue beyond the show.

Vegas PBS will continue to innovate and provide enhanced learning experiences that inspire families and educators throughout 2018 and beyond.

“...grounded in research showing that the combination leads to better learning outcomes for kids.”

Mountaineer Jon Gupta has climbed throughout the Himalayas, but he’s never climbed in India. All three share a common bond: their families come from India. This land is in their blood. Now they want to share India’s natural wonders.

Throughout the Month

Victoria Season 2 on Masterpiece
Sundays at 9 p.m., concluding on February 25

The new season of this fabulous series concludes this month. Season 2 finds Victoria adapting to motherhood after the birth of her first child, a daughter (to the disappointment of many). Meanwhile, the disaster of the Anglo-Afghan War unfolds abroad, and the catastrophic Irish potato famine begins to wreak havoc. In other foreign affairs, a royal state visit to France is in the offing. Most intriguing to Prince Albert is the budding Industrial Revolution, which is now sweeping England. There is Charles Babbage’s mechanical calculator, a collaborative project with the bewitching Ada Lovelace, daughter of the scandalous Lord Byron. Then there is William Fothergill Cooke’s miraculous electrical telegraph, not to mention Marc Isambard Brunel’s daring – and dangerous – Thames Tunnel. Each episode repeats the following Sunday at 8 p.m.

“*When Father Peter Clifford arrives from Manchester, he knows he will be facing some opposition.*”

## THIS WEEK'S PICKS

### Animals with Cameras: A Nature Miniseries
**Wednesdays, January 31 – February 14 at 8 p.m.**

Wildlife cameraman Gordon Buchanan and a team of pioneering animal behaviorists join forces to explore stories of animal lives “told” by the animals themselves. Using the specially designed cameras, print across the savannah with a cheetah, plunge into the ocean with a seal and swing through the trees with a chimpanzee. Cameramen take a step back and let the animals themselves take us through the complex world they call home. Viewers will be privy to their secret lives like never-before and uncover some truly unprecedented behavior through their eyes. **Repeats the following Thursdays at 2:30 p.m. and Sundays at 9 a.m.**

### We’ll Meet Again
**Tuesdays at 8 p.m.**

The tides of history can disrupt lives, throwing strangers together or tearing loved ones apart. Through moving personal stories of hope, courage and love, this series brings together people whose lives intersected at pivotal moments. Executive produced and reported by Ann Curry, each episode reveals the powerful bonds forged among people who now, against the odds, have the chance to reunite with someone who transformed their world. The stories range from a Vietnam War baby desperate to find the American father she last saw 40 years ago to the military chaplain who helped a stranger through the trauma of 9/11; from a Japanese-American girl interned in 1942 who never forgot the classmate who helped her during her darkest hours to civil rights workers whose lives were forever changed by the deep relationships they formed in the 1960s South. **Repeats on Wednesdays at 4:30 p.m.**

**THIS WEEK’S PICKS**

**NOVA: Great Escape at Dunkirk**  
**Wednesday, February 14 at 9 p.m.**

As France fell to the German armies in May 1940, 300,000 Allied troops were trapped on the beaches of Dunkirk. Their annihilation seemed certain - a disaster that could have led to Britain's surrender. But then, in a last-minute rescue dramatized in Christopher Nolan's recent film, Royal Navy ships and a flotilla of tiny civilian boats evacuated hundreds of thousands of soldiers to safety across the Channel. Now, NOVA follows a team of archaeologists, historians, and divers as they recover the remains of ships, planes, and personal effects lost during the epic operation. With access to previously classified files, they also uncover the truth behind the myths of Dunkirk - notably, a claim that the Royal Air Force failed to protect the stranded men from the Luftwaffe's constant bombing of the beaches.

**Independent Lens: Winnie**  
**Sunday, February 11 at 11 p.m.**

Winnie Madikizela-Mandela is one of the most misunderstood and intriguing of contemporary female political figures. Her rise and seeming fall from grace bear the hallmarks of epic tragedy. While her husband Nelson Mandela was jailed for 27 years, Winnie lived a tumultuous life far from the safety of exile abroad. She came to symbolize the oppression of her people, and during the long years in which the African National Congress languished in exile and incarceration, her fearlessness incited them to get organized. She was the barometer for the political temperature of the country and willingly brushed patriarchal and conservative conventions aside. This special explores her life and contribution to the struggle to bring down apartheid from the inside, with intimate insight from Winnie herself, those who were closest to her and the enemies who sought to extinguish her radical capacity to shake up the order of things.

Clark County School District Spelling Bee 2018
Sunday, January 28 at 8 a.m.

The spellers that participated in the Final Spelling Bee have proven themselves at several levels of competition. In September and October, they competed in written spelling bee tests, moving up in ranking. Then in November, they competed in the CCSD Semifinal Spelling Bee, earning a spot as one of the top seven students from the 6th, 7th and 8th grades. The Final Spelling Bee was held in December at Vegas PBS where two spellers within each grade level – one champion and one runner-up – spelled their way to the top. **Sundays, February 4 - 18 from 10 a.m. - 6 p.m.**

Our marathon of this gripping drama continues this month as we air Seasons 5 and 6. Season 5 continues the saga of Lady Mary’s courtship contest, Lady Edith’s trials as a secret single mom, Thomas’s scheming against Bates, Robert’s battles against modernity, Tom’s quest to be true to his ideals, Violet’s one-line zingers and much, much more. Then in the sixth and final season, we learn the fates of the Crawley family and the servants who work for them, as they face new challenges and begin forging different paths in a rapidly changing world. Please note that the ending times may vary slightly.

Saturday, February 3 from 6 a.m. - noon
Planning to have people over to watch the big game? Create is here to help you plan for all of your tailgating essentials! Grill guru Steve Raichlen is getting this party started with some smokin’ hot recipes! Add football flair to the buffet table with Katie Brown’s snack tray and centerpiece. And for those who are looking for healthier options, the Jazzy Vegetarian and Christina Pirello have got you covered. We may not know who will win the game, but we do know that your menu will score big points! Repeats same day from 6 p.m. – Midnight and on Sunday, February 4 from Noon – 6 p.m.

Make It Artsy
Fridays at 11:30 a.m. beginning February 16
This fun, creative show is dedicated to the crafter, maker and artist - celebrating the maker spirit and enthusiasm that extends to every part of life. It’s more than crafting, more than art or scrapbooking, showcasing everything from mixed media to metal-smithing, using tools from saws to sewing machines, and materials from paper to wood. Join host Julie Fei Fan Balzer and unleash a new look for crafting with a touch of industrial style. Repeats same day at 5:30 p.m.
JACKPOT! SPOTLIGHT
Amanpour on PBS
Weekdays at 8 p.m.
Led by CNN’s Christiane Amanpour, this new series features in-depth conversations with global leaders and decision makers on the issues affecting the world today. Amanpour has earned every major television journalism award, including eleven News and Documentary Emmy Awards, four Peabody Awards, two George Polk Awards, three duPont-Columbia Awards and the Courage in Journalism Award. She has received nine honorary degrees, has been named a CBE and was this year inducted into the Cable Hall of Fame. The series also airs on Vegas PBS Channel 10 Tuesdays – Saturdays at Midnight.

WORLDVIEW SPOTLIGHT
Bulletproof Heart
Sundays at 6 p.m.
Investigative journalist Bruno Palmieri (Gigi Proietti) has been living for 30 years with a bullet in his heart, put there by an unknown shooter. It’s caused him to live carefully for three decades – too carefully, perhaps. He now decides to throw caution to the wind and live with gusto, embarking on a second career of investigating miscarriages of justice and old cases with hidden loose ends. He’s ready to tackle new stories, eat good food again and reconnect with the love of his life. Repeats same days at 9 p.m.

REWIND SPOTLIGHT
Kevin Kling: Lost & Found
Thursday, February 22 at 4 p.m.
Storyteller Kling—part humorist, part poet and philosopher, part sacred fool—explores his experience with disability, the one he was born with and the one resulting from a motorcycle accident. Original animations bring his stories vividly to life.

Why We Support Vegas PBS...

Visiting Angels helps seniors remain in their own home by assisting them with everyday tasks. We’re proud to own and operate the local offices of Visiting Angels.

While many Southern Nevada families relate to Vegas PBS because of its well-known educational and children’s programming, it also airs inspiring and entertaining television shows and documentaries, and offers informative television and community outreach programs and resources for seniors, veterans and other adult residents of the community.

We love Vegas PBS because they are partners in supporting the community—no matter the age.
