

Super Kitty 2 The Duo

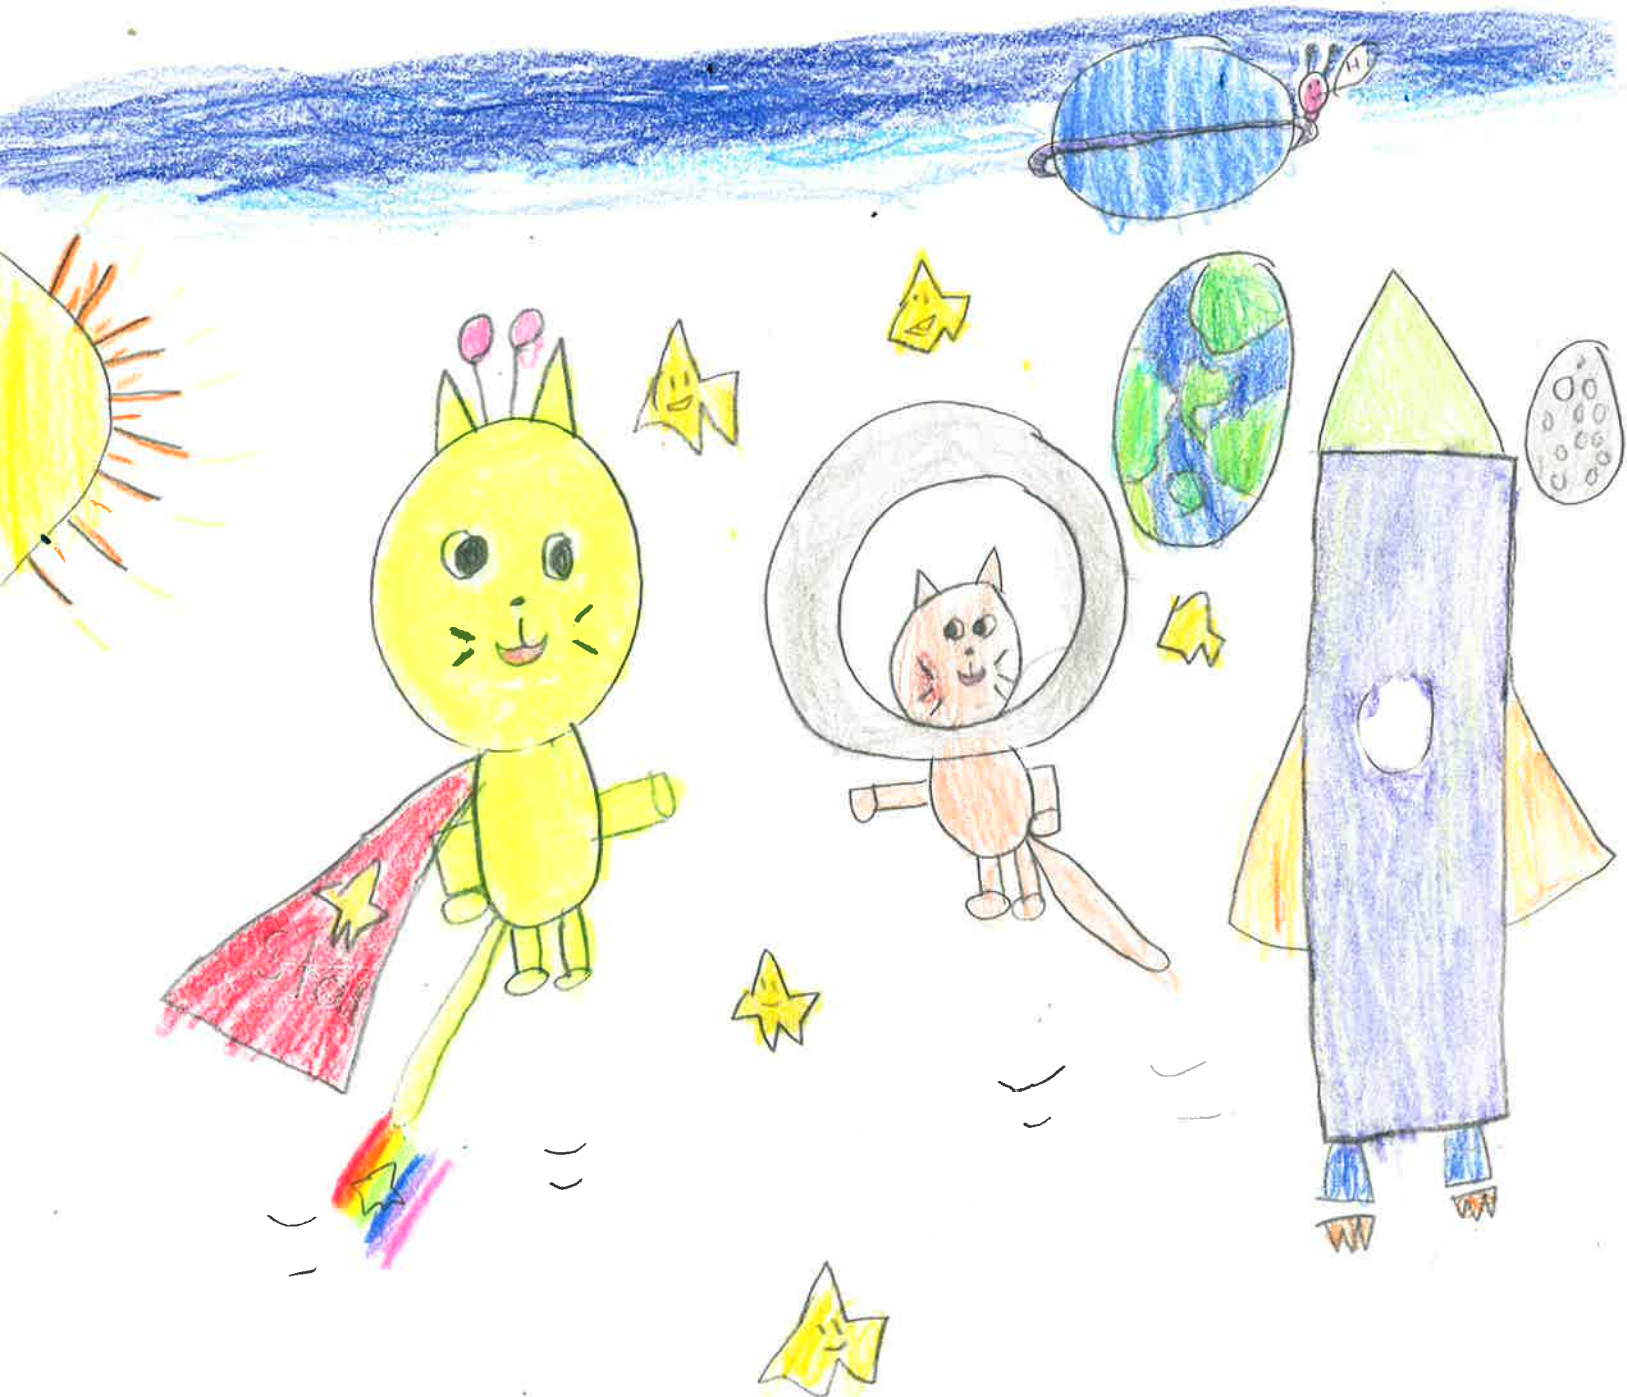

By Sarah Kim

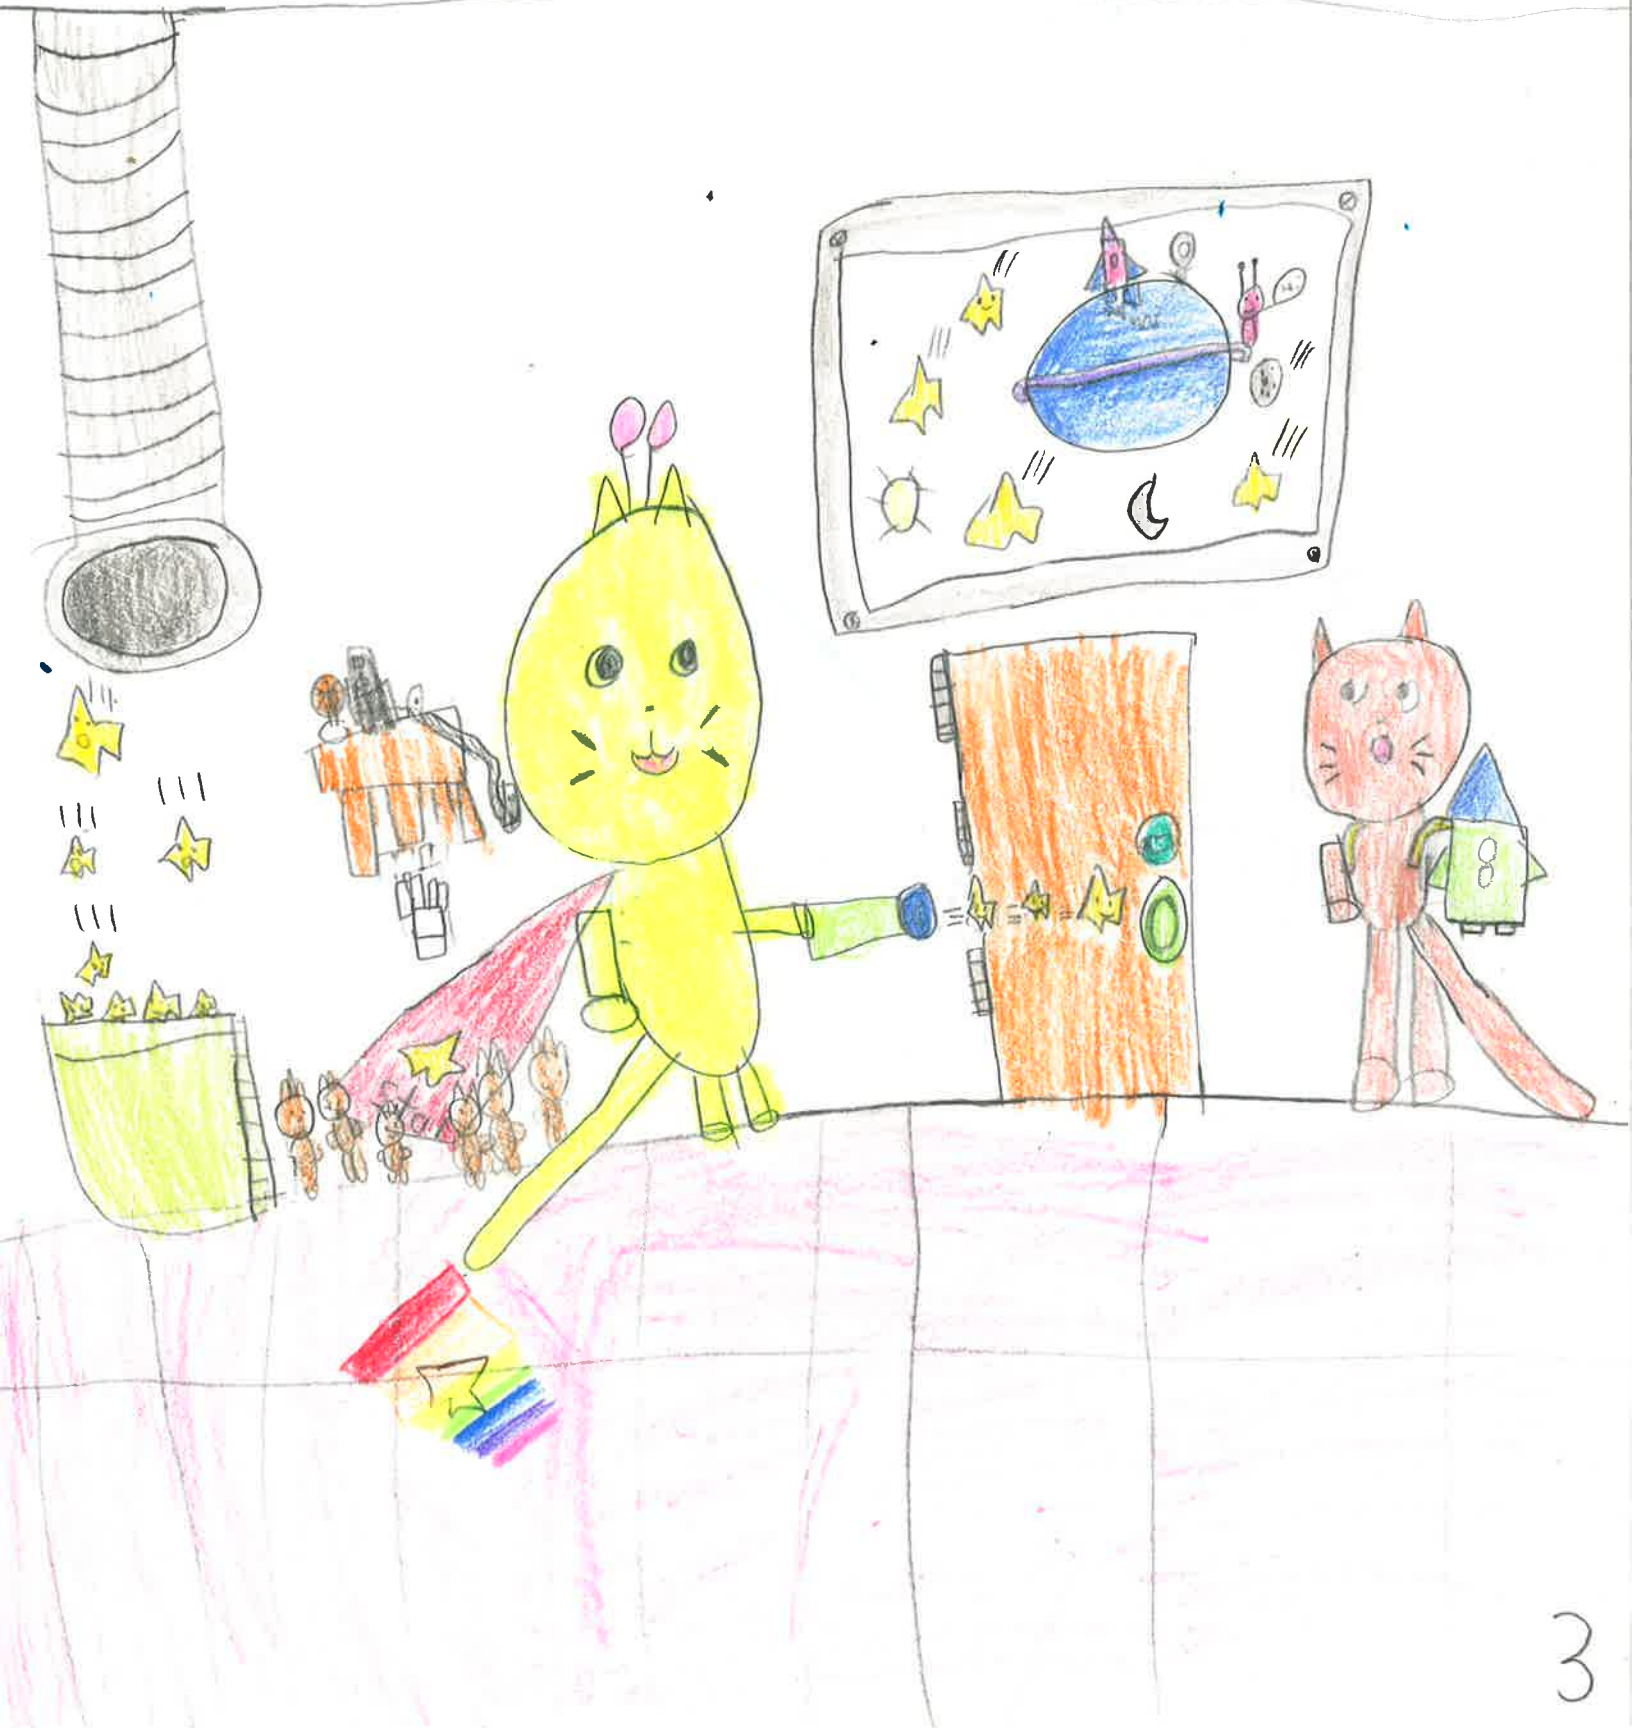

Previously... Scarlett built a rocket ship and flew out to space and met Super Kitty for the first time.

"Hello Super Kitty my name is Scarlett nice to meet you! Can I be your sidekick?"
Super Kitty says "Sure Scarlett, but you need training."

So they went to Super Kitty's Meowquarters and started training.

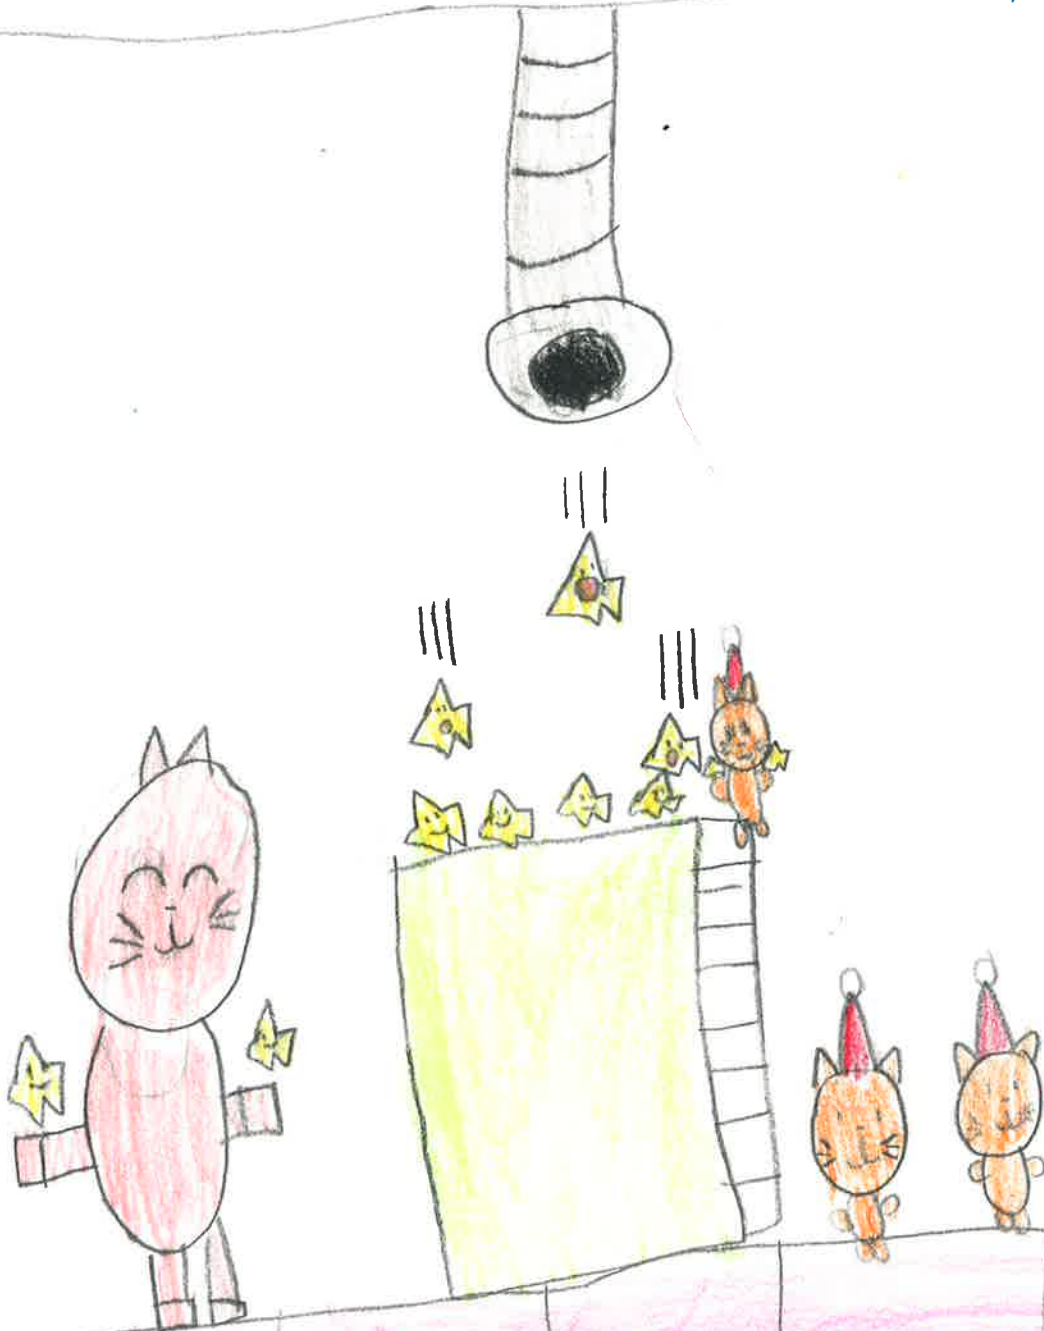

Step one: Shoot the stars toward
the Earth.

Step two: The stars go around the Earth and collect the wishes.

Step three: the stars return to Meowquarters and the elf kitties pick up the stars and give them to Scarlett.

Last Step: Scarlett brings the shooting stars to Super Kitty and the stars tell Super Kitty the wishes!

Super Kitty says "Well done Scarlett! Since you have finished your training you are officially my sidekick! Now let's go grant this wish!"

Scarlett says "I can't wait for our new adventure!"

To be continued!
