

Rainbow

World

by Chiara  
Hernandez

Once upon a time there was a planet that was super beautiful and one time it shined super bright. All of the shining was on earth.

All of the people on earth  
were very happy. The rainbow  
world was happy too because it  
rained and there was a very  
happy rainbow.

In the morning the rainbow was still there. The people in rainbow world were happy but then a very big storm came. The rainbow said, "I do not want to go!" Then the storm left and went away. The rainbow was happy.

The rainbow was very happy. At night it was very cold. The rainbow had to leave. So he got out of rainbow world and he went to his home in a cloud.

When it was warm the rainbow went back to rainbow world and he played with his friend. They made a double rainbow together. The end.
