

Lucky Charm

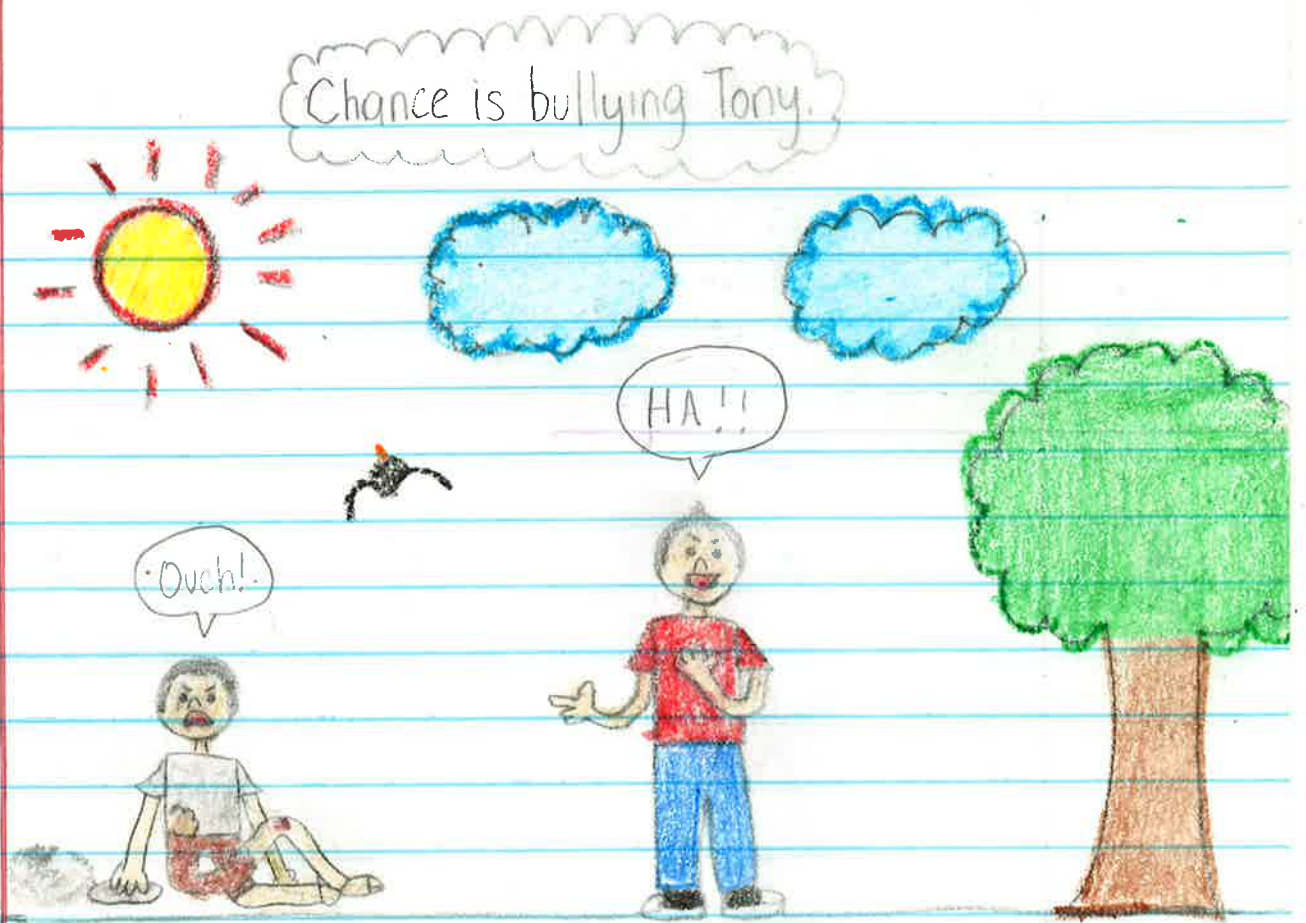

Howdy 'thure!

Rainbow town is a very peaceful town.

There once lived a broke teenage boy in rainbow town. His name was Tony Purpleman. The reason he was poor was because he didn't like exploring or trying new things. This had a reason of its own. When Tony was 12, his father went to explore a rainbow. But he never returned. Since then Tony developed a fear of rainbows.

As Tony was taking a walk, his worse enemy, Chance, came. He pushed Tony to the ground. "Hi scaredy cat!" greeted Chance. "I am not, and I told you to stop calling me that!" yelled Tony. "Can't, you have to prove it by exploring a rainbow! HA HA!" replied Chance. "Fine, maybe I will, and I'm going to prove you wrong!" said Tony confidently. As Tony walked home, he thought about the rainbow situation.

Tony is packing to explore a rainbow!

That night Tony tossed and turned in bed. When the sun rose, he had made a decision! He was going on an adventure for 2 reasons. That was to see if his father was still alive, and to prove not being a scaredy cat! Tony got one of his father's knapsacks along with some useful things. Finally, Tony started hiking up a mountain that lead to the rainbow.

Tony is almost there but he stops for the night.

Tony had almost reached the top, but he was tired, so he settled for the night. He set up a blanket to rest on. In the morning, Tony was hungry, so he ate a fruit he found near a bush. When he was done, Tony saw a bear! He ran as fast as he could. At last, he lost complete sight of it, and his heart was beating faster than ever!

Tony finds his father at the end of the rainbow.

Tony finally reached the top. There was a ladder, so he climbed up. Then, there was a slide, and Tony cluelessly slid down. Whoosh! When he arrived, Tony almost fainted when he saw his father standing there with a pot of gold for him. "Why didn't you come back?" questioned Tony. "There is no way out, and I couldn't call since I don't have a phone!" replied Mr. Purpleman. Tony was very happy he found his dad, and they lived happily ever after.
