Independent Auditors' Report

Board of Governors
University of Central Missouri
Warrensburg, Missouri

Report On The Financial Statements

We have audited the accompanying financial statements of KMOS Television, a Public Broadcasting Entity Operated by University of Central Missouri as of and for the years then ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the basic financial statements of KMOS Television, a Public Broadcasting Entity Operated by University of Central Missouri, as listed in the table of contents.

Management's Responsibility For The Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of KMOS Television, a Public Broadcasting Entity Operated by University of Central Missouri as of June 30, 2019 and 2018, and the changes in financial position and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Management's Discussion and Analysis

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements that collectively comprise KMOS Television, a Public Broadcasting Entity Operated by University of Central Missouri's financial statements. The accompanying supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. This information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2019

Overview

KMOS Television (KMOS-TV or the Station) is operated by University of Central Missouri, Warrensburg, Missouri (UCM). Since first signing on in 1979, KMOS-TV's mission has been to provide Missouri citizens with commercial-free, quality, substantive programming, which enriches, enlightens, informs and entertains. KMOS-TV's programming presents the highest accomplishments of our society, permits talent to fulfill the potential of electronic media, and provides opportunities for diverse audiences to benefit from such programming unavailable from other sources. As part of UCM's commitment to prepare its students to excel as they enter the professional world, KMOS-TV provides a professional atmosphere for learning for 40-50 student employees and student volunteers annually. KMOS-TV depends heavily on its student staff, providing real life opportunities for domestic and international students by providing practical experiences in all disciplines vital to a successful broadcasting entity.

KMOS-TV supports UCM's statewide technology mission by providing technical and administrative support for the distribution of professional development resources, instructional programs and educational outreach materials for lifelong learning. The Station promotes UCM through appropriate public relations programming and activities and offers telecommunications support to other university departments.

Another facet of KMOS-TV's mission is to provide quality outreach initiatives that include educational activities along with program information. KMOS continues to provide community and education outreach by identifying sponsorships and events engaging new audiences, especially under-served communities. Over 100 children, kindergarten through third grade participated in the annual 2019 local Writers Contest. We received entries from kids in 26 counties across our broadcasting area. Each contest participant receives a packet containing their story, a thank you letter, certificate, new children's book, and book mark.

Furthering KMOS' outreach mission partnered with the non-profit Capital City Cinema in Jefferson City, MO to present the Independent Lens Pop-Up screening series. The Indie Lens Pop-Up series is an ongoing public presentation of independent documentaries presented by ITVS to PBS stations. As part of these screening KMOS and Capital City Cinema partnered with organizations and individuals within the community to provide a local context to these films. These events were well attended by the community.

**KMOS-TELEVISION - A PUBLIC BROADCASTING ENTITY
OPERATED BY UNIVERSITY OF CENTRAL MISSOURI**

Management's Discussion And Analysis

KMOS distributed approximately 2,500 children's books through events, non-profits and community based organizations. The Contact programming guides were distributed to 280 schools every month, September through May, and 500 of the PBS KIDS Summer Learning Program educational resources were distributed through events and community based organizations.

KMOS-TV in FY2018 experienced a significant reduction in University funding, this reduction was anticipated and KMOS initiated a program of re-organization and strategic planning in an effort to prevent this loss of funding to affect the community it serves. KMOS was successful in avoiding any loss of programming and was able to increase its unique offerings and viewership however this loss has taken a toll on the outreach and community educational efforts with a reduction in staff creating a deficit in the available man-hours to perform community outreach. Again in FY2019 KMOS received an additional reduction in funding from the University resulting in the loss of two significant management positions in the station, the Production Manager and the Assistant Director for Technology. The Director of Broadcasting Services assumed these duties in the interim.

Despite the financial challenges, due to reduced University funding, KMOS has not altered its primary mission of viewer/community service through its broadcast, nor has it sacrificed its mission of student success by serving as a real-world learning lab for UCM students.

This discussion and analysis of KMOS-TV's financial statements provides a comparative overview of the Station's financial performance during the years ended June 30, 2019, 2018 and 2017. The Management's Discussion and Analysis is designed to focus on current activities, resulting changes and current known facts. Please read it in conjunction with the Station's basic financial statements and footnotes. These financial statements are prepared in accordance with Governmental Accounting Standards Board (GASB) pronouncements.

Management's Discussion And Analysis

Statement Of Net Position

The statement of net position presents the financial position of the Station at a point in time. The statement of net position has three major components which include 1) assets, 2) liabilities and 3) net position. A description of each component is as follows:

Assets - Current assets are those anticipated to be liquidated within one year or less and include items such as cash and cash equivalents, accounts receivable and prepaid expenses. Noncurrent assets include that portion of accounts receivable, inventories and prepaid expenses not expected to liquidate within one year plus capital assets such as buildings, building improvements, infrastructure, equipment, etc.

Liabilities - Current liabilities are those anticipated to be recognized within one year or less and include items such as accounts payable and accrued liabilities, accrued compensated absences, and deferred revenue. Noncurrent liabilities include that portion of accrued liabilities, accrued compensated absences and deferred revenue that are not due within one year.

Net Position - Net position represents Station total assets less total liabilities. Net position is classified in two major categories which include 1) net investment in capital assets and 2) unrestricted.

- 1) Net investment in capital assets represents building, building improvements, equipment, etc., that is net of accumulated depreciation.
- 2) Unrestricted net position represents balances from operational activities that have not been restricted by parties external to the Station. This includes funds that have been designated for specific purposes as well as amounts that have been contractually committed for goods and services not yet received.

NOTES TO FINANCIAL STATEMENTS

June 30, 2019 And 2018

1. Nature Of Operations And Summary Of Significant Accounting Policies

Nature Of Operations

KMOS Television (KMOS-TV) is operated by University of Central Missouri, Warrensburg, Missouri (UCM). All amounts contained in this report are included in the financial statements of the University, a component unit of the State of Missouri, or the University of Central Missouri Foundation (Foundation), a component unit of the University, as of and for the years ended June 30, 2019 and 2018. As KMOS-TV is part of the University, it is exempt from federal and state income taxes.

Basis Of Accounting And Presentation

The financial statements of KMOS-TV have been prepared on the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities from exchange and exchange-like transactions are recognized when the exchange transaction takes place, while those from government-mandated non exchange transactions (principally federal and state grants and state appropriations) are recognized when all applicable eligibility requirements are met. Internal activity and balances are eliminated in preparation of the financial statements unless they relate to services provided and used internally. Operating revenues and expenses include exchange transactions and program-specific, government-mandated non exchange transactions. Government mandated non exchange transactions that are not program specific (such as state appropriations), investment income and interest on capital asset-related debt are included in non-operating revenues and expenses. KMOS-TV first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net position is available.

KMOS-TV prepares its financial statements as a business-type activity in conformity with applicable pronouncements of the Governmental Accounting Standards Board (GASB) and the regulations of the Corporation for Public Broadcasting (CPB).

Notes To Financial Statements (*Continued*)

Use Of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash

At June 30, 2019 and 2018, cash consisted primarily of pooled cash accounts with the University and the Foundation.

Accounts Receivable

Accounts receivable includes amounts due from the federal government, state and local governments, or private sources, in connection with reimbursement of allowable expenditures made pursuant to KMOS-TV's grants and contracts. Accounts receivable are recorded net of estimated uncollectible amounts; however, KMOS-TV had no estimated uncollectible amounts at June 30, 2019 or 2018.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or at their estimated acquisition value at the date of donation if acquired by gift. Depreciation is computed using the straight-line method over the estimated useful life of the asset. KMOS-TV uses an estimated useful life of either 5 or 10 years for equipment, 15 years for antennas and 40 years for towers and buildings. As KMOS-TV is a part of the University, the University determines what capital assets are used by KMOS-TV and transfers of capital assets to and from KMOS-TV are at the University's discretion.

**KMOS TELEVISION - A PUBLIC BROADCASTING ENTITY
OPERATED BY UNIVERSITY OF CENTRAL MISSOURI**

Notes To Financial Statements (*Continued*)

Compensated Absences

Station policies permit most employees to accumulate vacation benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability are recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at the statement of net position date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

Unearned Revenue

Unearned revenue represents advances on grants for which KMOS-TV has not met all of the applicable eligibility requirements.

Net Position

KMOS-TV's net position is classified as follows:

Net investment in capital assets - This represents KMOS-TV's total investment in capital assets.

Unrestricted net position - Unrestricted net position represents resources derived from state appropriations, sales and services of educational services, unrestricted gifts, tower rentals and royalties. These resources are used for transactions relating to the educational and general operations of KMOS-TV and may be used to meet current expenses or for any other purpose.

In - Kind Contributions

Donated facilities from the University consist of office and studio space. These items, together with related occupancy costs, are recorded in revenues and expenses at estimated fair rental values. Administrative support from the University consists of allocated institutional costs and certain other expenses incurred by the University on behalf of KMOS-TV.

Foundation

KMOS-TV is the beneficiary of a Foundation that is a separate legal entity with its own Board of Trustees. The Foundation has legal title to all of the Foundation assets.

Risk Management

KMOS-TV is exposed to various risks of loss to torts; theft of, damage to and destruction of assets; business interruption; errors and omissions; employee injuries and illnesses; natural disasters and employee health and accident benefits. KMOS-TV is covered under the University's commercial insurance policy that is purchased for claims arising from such matters other than those related to workers' compensation and natural disasters. The State of Missouri self-insures workers' compensation benefits for all state employees, including University and Station employees. Claims are administered by the Missouri Office of Administration, Risk Management Section.

Pension And OPEB Liabilities

In accordance with GASB Statement No. 68, *Accounting for Pensions*, UCM must recognize its proportional share of the net pension liability for MOSERS. In addition, UCM must recognize a liability related to its other postemployment benefit plan in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. KMOS-TV is a department of UCM, therefore, no liabilities are reported in KMOS-TV's financial statements related to UCM's net pension liability or UCM's OPEB liability.

2. Deposits

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. KMOS-TV's deposit policy for custodial risk must comply with the provisions of state policy which requires all deposits placed in financial institutions to be at least 100% collateralized with securities that are acceptable to the Missouri State Governor, Missouri State Treasurer and the Missouri State Auditor. All securities, which serve as collateral against the deposits of a depository institution, must be safe kept at a nonaffiliated custodial facility. Depository institutions pledging collateral against deposits must, in conjunction with the custodial agent, furnish the necessary custodial receipts.

At June 30, 2019 and 2018, KMOS-TV's share of pooled cash maintained by the University and the Foundation was \$1,464,002 and \$1,232,479, respectively. None of these deposits were exposed to custodial credit risk at June 30, 2019 or 2018.

4. Contingencies

Grants

KMOS-TV is currently participating in numerous grants. The expenditures of grant proceeds must be for allowable and eligible purposes. Audits by the granting department or agency may result in requests for reimbursement of unused grant proceeds or disallowed expenditures. Upon notification of final approval by the granting department or agency, the grants are considered closed.

5. Current Economic Conditions

The current economic conditions continue to present public broadcasting entities with difficult circumstances and challenges, which in some cases may result in declines in University support, grant revenue and contributions. The financial statements have been prepared using values and information currently available to KMOS-TV.

Current economic conditions have made it difficult for many donors to continue to contribute to stations. Changes in contribution levels and grant funding could have an adverse impact on KMOS-TV's future operating results.

In addition, given the volatility of current economic conditions, the values of assets and liabilities recorded in the financial statements could change rapidly, resulting in material future adjustments. KMOS-TV could experience difficulty maintaining sufficient liquidity should significant changes occur.
