The Brain Switch
by Riley
Once upon a time. Pixie the dog was chewing on a brain-switching gem!
Sofia went to take the gem from Pixie… but what she didn’t know is that when a dog and a person touch the gem with their mouth or hands, it switches their brains!
So when Sofia took it from Pixie... Sofia had the brain of a dog and Pixie had the brain of a person.
So now the dog has to feed the HUMAN!!! ... But the weird thing is that the dog can TALK now!!!

Now the human looks like a goof chewing on socks and digging on the floor!!!

And they stayed like that for the rest of their lives!!!
The Brain Switch

The End
