

" The Tooth Fairy House "

A bunny named Ariel was so so sad, he had no friends to play with.

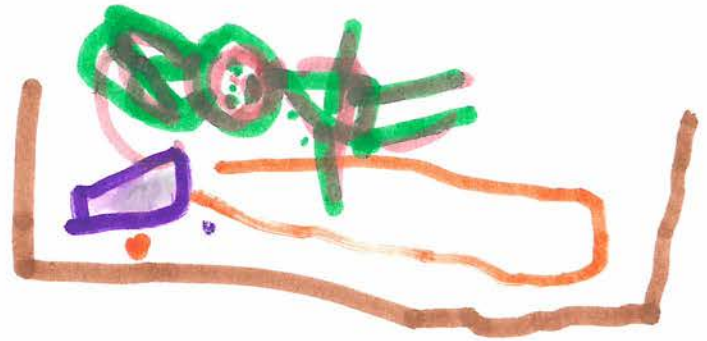

Ariel talked to a flower and wanted to know if it could play. The flower said no because it didn't have any dirt or toys to share with Ariel.

He decided to go find friends and hopped out the front door and down the street.

Ariel was sad and went to his own house to play when he fell down and knocked out two of his teeth!

Ariel asked Grandma what to do with his teeth when she said we must leave them for the tooth fairy!

Ariel found a fairy house and knocked on the door to say "hi".

Ariel was so excited; he knew where the tooth
fairy lived!
